

RELEAF BETHANY BEACH

Bethany Beach is announcing a plan to assist leaseholds in planting new trees. The board has approved the Releaf Bethany Beach plan to copay a portion of the cost for planting up to 50 new, deciduous shade trees on individual leaseholds to replace the many trees that have been lost every year. This is a negotiated plan with the nursery who will be supplying and planting the trees. The discounted cost to the leasehold is \$250 for a 2" tree (appx 9'-10') and \$375 for a 2 1/2" tree (appx 10'-12').

We will be meeting with interested leaseholders to select a suitable location and tree. Restrictions apply.

Orders for trees will taken now through Labor Day weekend 2023 for group planting in the Spring of 2024. If you are interested, please TEXT Mark Grandholm at 219-629-1329 or Steve Glassman at 630-542-4059 to arrange a meeting.
